Painter Jon Neuse and sculptor Perci Chester, combine their work to present a provocative exhibition full of color and surprise. Neuse's paintings entertain with playful images with dark edges and Chester's sculptures are visual poems that linger in the mind of the viewer.

Neuse's work is represented in universities and museums throughout the United States. Here Neuse's work represents what he has been painting for the last forty years: male, female and family relationships.

Chester has exhibited solo and group shows in museums and galleries. She is the recipient of public commissions for large scale outdoor works in the United States and abroad, including Poriya Hospital Complex in Tiberias, Israel, North Beach public housing in San Francisco California and regionally at the new Promenade Sculpture Park in Edina Minnesota.

Both Neuse and Chester have exhibited nationally and internationally.

Please join the artists at a presentation about their work in the gallery. Neuse, April 15, 5:30 to 7:00 PM and Chester, April 22, 5:30 to 7:00 PM.

Studio visits can also be arranged by appointment:
